

BLANCO SILGRANIT SINK CARE AND MAINTENANCE

Blanco Silgranit Sink Care and Maintenance

BLANCO

HOW TO CLEAN YOUR SILGRANIT SINK

Silgranit has a non-porous, smooth stone surface that repels water and liquids, making it stain resistant and easy to clean. This low-maintenance, long-lasting material will help make life in the kitchen easier. Read our tips below to learn how to keep your kitchen sink looking like new.

FOR DAILY CLEANING:

A Silgranit sink will maintain its long-lasting beauty best if cleaned daily. Follow the instructions to clean everyday traces and marks from your sink:

- Wet and squeeze some dish soap onto the soft side of a sponge.
- Wipe the Silgranit surface in small, circular motions.
- Rinse with clean water and dry with a microfiber cloth.

FOR WEEKLY CLEANING:

For a deeper, weekly cleaning to extend the life of your BLANCO sink, use BLANCOCLEAN Daily+ to reduce limescale. Follow this process:

- Pour BLANCOCLEAN Daily+ directly onto the sink and let sit for 1-2 minutes to take effect.
- Wear a glove and wipe with a wet cloth or soft side of a sponge in the small, circular motions.
- Rinse with clean water and dry with a microfiber cloth.
